INTRODUCING
HYDRAFACIAL™

The HydraFacial™ treatment is a new breakthrough in aesthetic technology. It takes its name from the root word Hydrate; "to cause to take up moisture". This ability to moisturize the skin separates the HydraFacial™ from all other skin resurfacing procedures. The HydraFacial™ treatment removes dead skin cells and extracts impurities while simultaneously bathing the new skin with cleansing, hydrating and moisturizing serums. The treatment is soothing, refreshing, non-irritating, completely noninvasive, and immediately effective.
